from Episode #2

Into a large pitcher:

One can of frozen limeade or Bacardi margarita drink mix

$\frac{1}{2}$ - $\frac{2}{3}$  can (from limeade) of Tequila

1 can of water

1 bottle of Corona beer

Fresh lime slices for the pitcher and garnish your glass.

Stir and enjoy. Even if you're not a 'beer drinker', You'll be surprised at how yummy this is.

\*Hot-lips option: a slice of jalapeno in the glass for guests who want to kick it up a notch. Or muddle it into the drink and let it hang out for a bit. Wooooo!
